

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1-28 (Cancelled)

29. (New) A method for the preemergence control of undesirable plant species comprising applying as a tank mix to soil containing seeds of the undesirable plant species a herbicidally effective amount of a microcapsule composition comprising a dinitroaniline compound, with a herbicide formulation comprising diflufenzopyr or dicamba or diflufenzopyr and dicamba.
30. (New) The method of claim 29 wherein the microcapsule has a median diameter from 3 micrometers to 10 micrometers.
31. (New) The method of claim 29 wherein the dinitroaniline compound is pendimethalin or trifluralin.
32. (New) The method of claim 29 wherein the undesired plant species is crabgrass.
33. (New) A method for the control of undesirable plants in the presence of desirable crop plants which comprises applying to soil containing the desirable plants and seeds of the undesirable plant a herbicidally effective amount of a

microcapsule composition comprising a dinitroaniline compound.

34. (New) The method of claim 33 wherein the microcapsule has a median diameter from 3 micrometers to 10 micrometers.

35. (New) The method of claim 33 wherein the dinitroaniline compound is pendimethalin or trifluralin.

36. (New) The method of claim 33 wherein the undesired plant is crabgrass.

37. (New) The method of claim 33 wherein the desired plant is lettuce, tomatoes or corn.

38. (New) A method of safening a desirable crop from the effects of a herbicide applied to control undesirable plants in the presence of plants of the desirable crop, the method comprising applying a herbicidally effective amount of a microcapsule composition comprising a dinitroaniline compound to the vicinity of the plants of the desirable crop.
